

# The Cri-Weekly Yeoman.

FRANKFORT,  
THURSDAY, SEPTEMBER 14, 1854.

THE CROPS AND THE DROUGHT.—It seems to us that there is a good deal of unnecessary alarm and talk upon the subject of short crops, and the prospect of a famine in our country. It is true that in a portion of the United States, from about the middle of Indiana, Ohio and Illinois, to the middle of Tennessee, the corn crop will fall short of the general average, but we think not so much so, as the general impression would imply. North and South of these lines, as far as we can glean from the papers published in those regions, there will be more than an average crop. In Iowa and Wisconsin, and northern Ohio and Indiana and Illinois the corn is finer than has been known for years. The same is true in regard to Texas and all the Southern states which raise corn as a staple. Even here, in Kentucky, the crop is not so far below the average as the panic among our farmers would indicate. In the mountain districts, South and North, we have cheering news, for we have the best authority, that in many places in those districts, they have not known drought, and the crops give finer promise than they have for years. Even in our own county (Franklin) we know of regions that have not suffered, and where the yield will be greater than it has been for years back.

In addition to this, there is quite a large surplus on hand from the last year's product in all parts of the Union, where a surplus has usually been raised.

The early crops, wheat, oats, &c., have yielded unusually abundant throughout the entire Union, and we see no reason for the present high price of flour, and other articles of provision. Neither, can we see any reason why (as is the case at present here) that fattened hogs should command from four to four and a half dollars per hundred, while stock hogs are offered freely at one dollar, gross. In this region meat is plenty; and with the corn that has been raised, as many hogs can be fattened as heretofore. The knowing ones of this county are accordingly purchasing all the stock hogs that they can, with the absolute certainty, of realizing a fine per centum on the investment.

It Won't do to conclude that a man is always happy when he is 'smiling,' or that he is a house builder because you always find him with a 'brick in his hat.'

OREGON.—The next legislature of Oregon will consist of 23 democrats and 6 whigs in the house; 7 democrats and 2 whigs in the council.

The Oregon Statesman gives a list of 53 flouring mills in Oregon Territory, which it says are constructed with all the improvements of the day. And it says that the best of wheat is being produced there, they can turn out a quantity of flour second to none in the market.

HON. GARRET DAVIS.—That gallant and eloquent gentleman, the Hon. Garret Davis, of Bourbon, was in the city yesterday. Whether he is to be the next representative in Congress from the Ashland District, or chosen Governor at the ensuing election in 1855, has not yet been determined. One of these places very certainly awaits the acceptance of Mr. D.—*Louis Courier*.

One of these places will wait a long time for the "acceptance of Mr. D." We presume his "private affairs" will not permit him to accept a nomination for Congress against Maj. Breckinridge.

MARRIAGE.—The more married men you have, the fewer crimes there will be. Examining the frightful columns of your criminal calendars— you will there find a hundred youths executed to one father of a family. Marriage renders men more virtuous and more wise. The father of a family is not willing to blush before his own children. He is afraid to make them ashamed of their inheritance.

In the case of Thomasson on trial for the murder of his brother, at Georgetown, the jury have been unable to agree. The Lexington Statesman says:

"We understand that the jury in the case was out about six hours, and finding it impossible to agree, were discharged by the Court, inasmuch as the term came to a close under the law, on Saturday, the case was submitted. It is rumored that eleven of the jurors were for conviction and one for acquittal. This one, whose name is McRobinson, was hooted at by the crowd after the jury was discharged, and with some demonstrations of violence on their part and no very complimentary remarks in regard to his integrity he made a hasty retreat in search of security. This is as we hear the facts from those who were present."

One of our exchanges has the following hit:

The late Rev. Mr. Champin being asked of what use the elders was in church, replied, that it was said to give power to ministers. He was a unit, the elder cypresses; placed upon his right hand, they increased his power, "out," but he added my elder has got on the wrong side, and reduced me to a decimal fraction.

SENATOR DOUGLASS AT CHICAGO.—The New York Journal of Commerce, a paper that has always been in its tendencies, but still true to the South, and warm in its advocacy of all measures calculated to destroy sectionalism, talks thus of the reception of Douglass at Chicago:

That hot-bed of fanaticism, the Syracuse of Illinois whose Common Council a few years ago passed an ordinance nullifying a law of the United States, and then back out from their position, under the sledge hammer knocks of Senator Douglass, has this time taken the precaution of not hearing him, least they should again be obliged to confess themselves in the wrong.—They dare not trust themselves with his arguments or his facts. Just so the fanatics of an ancient city, to whom one of the Apostles intended to make known the Gospel of Christ, drowned his voice by shouting, "Great is Diana of the Ephesians." From practical demonstration of the Abolitionists, Free-Sailors, and Abolition whigs of Chicago, we learn what they mean by "free discussion." It is freedom to pour forth their denunciations wherever and whenever they please, without interruption or objection, and feed to prevent any who differ from them, from exercising the liberty of speech. Everybody knows that it takes but a few months, if let loose Bedlam-fashion, to drown the voice of any speaker, so as to prevent his being understood; and this is the fact which the Chicago heroes have performed. The time is not distant when they will be ashamed of it. The tolling of the bells another achievement for which they ought to have full credit. It has been tried at several places in New England, by way of lamentation for the passage of a law giving the people of Kansas and Nebraska the same power which Massachusetts and Connecticut have, of regulating their own domestic affairs as they think proper, why should it not be tried at Chicago? The pulpits of many of the churches are turned into rostrums; why should not the bells of the churches be used for the same end? As to flags of the shipping being set at half mast, that is understood to have been an expression of "indignation," because the Hon. Senator voted against wasting millions of the public money and harbor "improvements," for the benefit of speculators in many cases, rather than for any purpose deserving to be called national. For ourselves, we honor such independence in our public men, and wish we had more of it.

Mr. Douglass has never been a particular favorite of ours, and is not now; but this we will say, for the benefit of whom it may concern, viz: That his enemies are doing far more than his friends to fulfill his alleged political aspirations. The same course of detraction, abuse, contempt, dishonesty, &c., made Martin Van-Buren President of the United States, and it will do the same for Douglass.

That is well said, for a Whig paper, and when we come to consider the fact that the Journal of Commerce is a Northern print, we scarcely know to what extent to commend it. But, as we said before, in a former number of our paper, the time is coming when Douglass will be heard on all these questions, and when these same fools and fanatics will be compelled to acknowledge that they were wrong. He did nothing in the last Congress but what a patriot and statesman should have done, and for those actions the people, the whole people will give him the reward that is due.

REBELL OF THE NEW ENGLAND CLERGY.—The Warwick Baptist Association of New York at its last meeting, administered a rebuke to the three thousand political clergy of New England, who recently assumed to themselves the authority to speak the will of the Almighty, concerning the Nebraska bill. We quote the following from a report adopted by the Association:

"We utterly repudiate all fellowship with those who impiously assume to protest in the name of the Almighty God against the passage of laws for the organization of territorial government or other purposes, and in His name to fulminate anathemas against the representatives of the people in the discharge of their official duties. And we regard the assumption that any body of men are divinely instructed to sit in judgment upon all questions of a moral and religious nature, as one which, if recognized by the people, is calculated to destroy every vestige of civil and religious freedom, and prostrate all the institutions of our land at the feet of an irresponsible and arrogant priesthood."

St. Louis, Sept 11.  
Information of an authentic nature has been received that about the middle of August a Sioux Indian killed an ox belonging to an emigrant, near Fort Laramie. The captain therefore sent a message to Light Fleming the officer in command of the fort. Lieut. Fleming and 20 men were detailed for the purpose of catching the offender. How or at what place it is not stated, but the whole of the command were killed. It appears to have been a deliberately contrived plot on the part of the Indians to waylay and murder them. The massacre was committed on the 15th.

It is also stated that Fort Laramie was surrounded by Indians, and there is reason to fear, that it was destroyed. The garrison numbered about 50 men—too inadequate force for so exposed a frontier.

After the battle, it is said, the Indians went to the American Fur Company's station, destroyed and carried off all of the goods they could to the value of \$10,000 to \$15,000.

Letters have been received from Santa Fe stating that F. X. Aubrey was stabbed in a field by Major Weightman, and died. Aubrey had just made the trip from San Francisco to Santa Fe in the extraordinary short time of 22 days.

A tremendous fire occurred at Brunswick, Mo. destroying nearly the whole of the town. Nineteen houses in the business part of the town were destroyed.

COLUMBIA, PA Sept 11.  
The number of deaths from cholera since Friday amount to 62.

NEW ORLEANS, Sept 8.  
Twenty-three hundred bales of new cotton were received by the steamer Prince on the 1st, a large cargo for the season.

CHARLESTON, Sept 11.  
There was a violent storm here which lasted 48 hours, doing immense damage to the city and vicinity. All the wharves were injured. The water flooded and completely flooded ware houses and stores. A great amount of merchandise was injured. The loss on the wharves is estimated at \$260,000. The wood work and staves facing on the battery on both sides were destroyed. Some wharves were cut down to low water mark. The shipping suffered considerable damage. The brig Eureka broke from her moorings, drifted against the battery, and finally sank and is a complete loss.

The steamer De Kalb had her cabin roof blown off. The schooner Isabella was sunk. A number of other vessels were driven ashore and seriously damaged. In the interior of the city, garages and houses were flooded—the occupants in some cases were saved in boats. There is much anxiety felt to hear from Sullivan's Island. Old Point house was swept away, but it is not known whether any lives were lost. The sea was making a complete breach through Moultrie House, and the occupants retreated to the cupola for safety. Most of those on the island have taken refuge in Fort Moultrie, which is considered perfectly safe.

Fears are expressed of great damage, having

been done in the interior of the country by the storm. All the telegraph lines are prostrated.

PHILADELPHIA, Sept 11.

A heavy rain storm from the northeast prevailed here during Saturday night and yesterday. It also extended to New York, Baltimore, and Washington. This morning the weather is clear and cold.

NEW YORK, Sept 11.  
The Empire City, with the California mails,

The arrival brings advices from Honduras to the 12th ult stating that the business port of Baliz, comprising one thousand buildings, had been destroyed by fire, involving a loss of \$300,000.

MONTPELIER, Sept 8.  
The majority of Judge Morris for Governor, it is said, will exceed 10,000.

For other Whig State officers the majority is about the same.

NEW YORK, Sept 8.  
The frigate Independence will sail for the Pacific next week, but will stop on her way at Groyton.

The Congress is to be immediately fitted out for the Mediterranean.

NEW YORK, Sept 9.  
The steamer Glasgow is below. She left the same day that the Africa did, and brings no later news.

HARTFORD, Sept 7.  
The Protection Insurance Company of this city failed this afternoon. It was an old company, with a capital of \$300,000; but their losses have been so heavy by the recent numerous and devastating fires, that they have been compelled to make an assignment.

COURT OF APPEALS.

TUESDAY, Sept 12.  
(38 Day.)

CAUSES DECIDED.

Barbour vs. Berry, Oldham; reversed.

Simpson vs. Dysart, Garrard; reversed.

Southern vs. Dunlap, Boyle; reversed.

McKeen vs. Claggett, Jefferson; affirmed.

Aslop vs. Barbee, &c., Mercer; reversed.

Swearingen vs. Harman, Bullitt; reversed.

ORDERS.

Rapp vs. Commonwealth, Madison;

Breckinridge vs. Fishback, Louisville;

Pond Draining Company vs. McGruder,

Asbury Chappell vs. Harper, Louisville;

Bently, &c. vs. Bustard, Jefferson; were argued.

WEDNESDAY, Sept. 13.  
(38 Day)

CAUSES DECIDED.

Klock vs. Protection Insurance Company, Jefferson; affirmed.

Boutiler vs. Haywood, Jefferson; affirmed.

Gill vs. Lush, Garrard; affirmed.

Wood vs. Pigg, Casey; affirmed.

Vandalsem vs. Newland, &c., Fayette; affirmed.

Green vs. Brandenburg, Clarke; reversed.

Mark vs. Clarke, Montgomery; reversed.

ORDERS.

Watson vs. Seddie, Louisville;

Kinkead vs. Ferguson, do;

Johnston v. Long, do;

Jarvis vs. Davis, do;

Reese vs. Beale, Louisville—were argued.

PASSING AWAY.

Shining mark all around us are inviting the fatal shafts of the destroyer. Even in the dreadfully cholera season of 1849, when the mortality from that fell pestilence was infinitely greater than it is now, we do not remember that it had so many illustrious victims as it has claimed, for this season.

It has invaded every rank of life. It has swept away the loving and the gentle—the sons and daughters of genius, as the sons dangerous to tell—the soldiers in the camp, and the judge upon the bench. It has in cases invaded the halls of legislation, as well as the hotel, and swept relentlessly across the broad bosom of the ocean—those quenching in darkness some bright particular star!—here claiming its victims in undistinguished and indistinguishable masses. Yesterday it was Henrietta Sontag—a queen of song—from which the world was bereft.

AN EXTRAORDINARY CASE.—A case came up before the city court last evening which we have never heard equalled in point of destitution. A man named Bartholomew Harrington was charged with committing a rape on a little girl named Margaret Gill, aged between 11 and 12 years. The parties were all Irish. The accused is a man at least 50 years of age, very large, and the child is rather small and delicate for her age. It appears that she came from Cincinnati with her mother, in charge of Harrington. They left that city without making known to Mr. Gill, the husband and father. They resided here for some weeks. Mrs. Gill passing off the accused who lived with her, as her cousin and uncle.—About two weeks ago Harrington was taken sick and during the temporary absence of the mother, he called on the child for some water, and on nearing his bed, he did or attempted to commit the outrage with which he is charged. The mother luckily came in, but evidently from fear of being exposed herself, gave no information of what had taken place, and the entire affair was brought to the notice of the officers by the neighbors, to whom the girl related it. Mrs. Gill had lived very unhappy with her husband at Cincinnati and Harrington was the principal cause of it.

The husband arrived a few days ago, and he was a witness. He stated, and it was corroborated by his little daughter, that both were driven out of the room by Harrington when Mrs. Gill occupied during the night, while he (Gill) and his child had to sleep on the porch all night. He said that he had no doubt that his wife and the accused had been living in this manner at Cincinnati without his being aware of it. He is evidently of little account. Mrs. Gill was in court and told her story with brazen innocence. Harrington has a wife and seven children in Fall River, Mass. The little girl was kindly taken in charge by Officer Phelps, and accused was committed to answer a charge of rape. The penalty, on conviction, is death, as the victim is under 12 years of age.—*Local Journal*.

Death lies in us like an untimely frost Upon the sweetest flower of all the field.—Today, it is General Alvarez, Colonel Washington, ex-Governor Towns, Georgia—warriors and statesmen alike—while lesser home, and all within the past few days) the names of Emma Wheatley Miss Fillmore, Nathaniel Dowdall Blount, ex-Judge Meritt, and others, equally loved and respected, are recalled to remembrance, and all of our common mortality. We have singled out these, because the destroyers came to the most of them, as he may come to us, without premonitory notes of warning, "which sometimes, extending through weary days and weeks and months, mercifully tend to unloose the ties which bind the mortal to the immortal." There is a sombre lesson in these sudden summonings, and there is a mortification in it, which every reflection mind, justly estimating the responsibility of time, and the uncertain tenure of human life, should endeavor to profit by.

"What to the grave,  
It brings no real homely, we sigh,  
Paus for awhile, and murmur 'all must die,  
Then rush to pleasure, action, sin, once more  
Swell the lone tide, and float onto the shore."

We have seldom if ever heard the peculiar idiom of a drunkard's conversation so strikingly described as by John G. SAXE, during a last visit that we had from that gentleman. We were speaking of the multiplicity of ideas of the inebriate, and of his inability to connect or arrange them in proper order, when SAXE related the following by way of illustration:

Returning home late one night, after being on a "bender," and receiving a Cauliflower from his better half over half, a taper suddenly threatened to revenge himself by enlisting in the Mexican army. The wife now relented, and told her staggering husband that if he joined, the Mexicans would kill him.

Leaning against the half opened door, the husband replied—

"W-w-w, I guess, there's two that can (hiccup,) play at that game. I ain't afraid of 'em! Let 'em kill. I kin kill as many as them as they can of me!"

Boston Museum.

I AM now receiving daily my stock of Fall and Winter Dry Goods, consisting of RICH, FANCY AND STYLISH GOODS. My stock cannot be excelled for cheapness and beauty. My customers and friends are invited to call upon me.

## PROSPECTUS.

Incidents of the Mountains for the last

FIFTY Years, arranged for some time past a book the title of which will be "Incidents of the mountain for the last 50 years," dedicated to the memory of the late Joseph Eve, an honest friend and patriotic gentleman, who resided at Covington, Ky., many years. His favorite of his countrymen was a sensible, kind benefactor of his region of the State. The book will contain a sketch of the distinguished individuals who have been prominent in various and varied parts of the last fifty and more years. He will also give a history of the first settlers of Kentucky, and his means resorted to, to serve the Union and the acts and doings of a foreign company formed in 1776 and a proposition to purchase of the State of Kentucky all the land south of the Ohio belonging to it, and other important chapters. The persons of the book will receive a full reward at their respective Post Offices.

This production will appear some time in May next no unforseen accident intervening, and will have appended to it all the names of the authors.

It will be a gratification to the author, to have the money (one dollar) paid in advance, should the subscribers prefer to do so; but that is left entirely to their choice. The book will be half bound and contain some 150 or 200 pages.

Feb 4-15.

## Carter's Spanish Mixture.

### The Great Purifier of the Blood!

Not a particle of Mercury in it.

An Internist, Physician, Surgeon's Crust, Rheumatism, Goutious Cutaneous Eruptions, Pimples and Pustules on the Face, Blotches, Lous, Chronic Sore Eyes, Ring Worm or Tector, Scald Head, Enlargement and Pain of the Bones and Joints, Rheumatic Ulcers, Syphilitic Disease, Leprosy, Spinal Complaints, and Diseases arising from an injudicious use of Mercury, Impudence in Life, or Impurity of the Blood.

This valuable Medicine, which has become for the most part an extraneous article, has passed through the hands of the proprietors, at the urgent request of their friends, to offer it to the public, who do with the utmost confidence in its virtues and wonderful curative properties. The following extracts, selected from a large number of papers, speak for themselves. In the words of the proprietor, "I am not afraid to let the world know in their localities, and of the highest respectability, many of them residing in the city of Richmond, Virginia."

Boyd, Esq., of the City of Richmond, says he has seen the Mixture called CARTER'S SPANISH MIXTURE administered in over a hundred cases, in nearly all the diseases of which it is recommended, with the most astonishing good results. He says it is the most extraordinary medicine he ever saw.

Ague and Fever—great cure—I hereby certify, that for three years I had Ague and Fever of the most violent description. I had several physicians, took large quantities of Quinine, &c., but without any permanent relief. At length tried Carter's Spanish Mixture, two bottles of which effectually cured me, and from happy to say I have had neither Chills or Fever since. I consider it has done more for the world, and the public, than any other medicine.

JOHN LONGSTORP.

Dr. A. Woodward, M. D., of Penn, University of Philadelphia.—It gives me pleasure to add my testimony to the professional ability of the author of the above named article. The name of Dr. Hunter's Medical Manual and have been before him. Containing an outline of the origin, progress, treatment and cure of every form of disease, contracted by promiscuous sexual intercourse by self abuse, or by sexual excess, with a advice for their prevention, written in a similar style, according all medical authorities, and a history of the progress and success of these cases, the result of some two ty years' successful practice, exclusively devoted to the cure of diseases of a delicate or private nature.

To which is added, receipts for the cure of the above diseases, and a treatise on the causes, symptoms and cure of the above.

*Testament of the Professor of Obstetrics in Penn. College, Philadelphia.—Dr. Hunter's Medical Manual.*

The author of this work unite the majority of those works who otherwise have been ignorant of the subject.

He is one of the best Colleagues in the United States. It affords me pleasure to recommend him to the unfortunate, or to the victims of negligence, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

From A. Woodward, M. D., of Penn, University of Philadelphia.—It gives me pleasure to add my testimony to the professional ability of the author of the above named article. The name of Dr. Hunter's Medical Manual and have been before him. Containing an outline of the origin, progress, treatment and cure of every form of disease, contracted by promiscuous sexual intercourse by self abuse, or by sexual excess, with a advice for their prevention, written in a similar style, according all medical authorities, and a history of the progress and success of these cases, the result of some two ty years' successful practice, exclusively devoted to the cure of diseases of a delicate or private nature.

To which is added, receipts for the cure of the above diseases, and a treatise on the causes, symptoms and cure of the above.

*Testament of the Professor of Obstetrics in Penn. College, Philadelphia.—Dr. Hunter's Medical Manual.*

The author of this work unite the majority of those works who otherwise have been ignorant of the subject.

He is one of the best Colleagues in the United States. It affords me pleasure to recommend him to the unfortunate, or to the victims of negligence, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

JOSEPH LONGSTORP, M. D.
